

Trinity Court, Bolton

A former church, this historic Grade II listed building will become a three-storey apartment block with 42 studio flats. A four-storey apartment block has also been built to the east of the church and a two-storey apartment block, called The Lodge, will be added on the Crook Street side. These two buildings will contain 40 apartments between them. William Dyer Electrical UK Ltd were commissioned for the installation of all the electrical requirements on the project. This included Mains Distribution-LED Lighting, Small Power, CCTV, Energy Efficient Heating, Door Access, Fire Alarm and all the electrical needs.

THE PROJECT

This landmark building stands in the centre of Bolton and will act as a perfect location for students who will be on the doorstep of the area's shops restaurants and bars. Bolton is part of the larger Greater Manchester region, which is one of the largest nerve centres for students in the UK. Trinity Church is located at the centre of this, being only a five minute walk away from Bolton University and within a short bus ride of Manchester University, UCLAN and Lancaster University.

The fully fitted studio rooms will act as luxury one bedroom apartments. Designed to suit the needs of a high-end occupant who would desire to be convenenced with a large boutique en-suite shower room and a flat screen TV pre-fitted with Sky.

Students choosing to live in Trinity Church will gain access to a new state-of-the-art £48 million transport interchange which ensures that students can explore their new home-away-from-home with ease.
